

1. The current climate financially is **permitted by God** but is SPIRITUAL IN **ORIGIN**.
2. Therefore if it is spiritual in origin, then giving ministry must be COVERED BY PRAYER, for protection of their finances, their homes, their jobs, because if anything that the enemy can do to dry up the income of anyone, will stop their giving.
3. That their income is not based on their salary but on their walk with God.
4. That their income is blessed by tithing to their local Church. This requirement is very clear. The local Church feeds you with the Word every week, and with fellowship too. Therefore deserves the reception of the required tithe. I am very clear on this.
5. However sowing, is a faith operation, is based solely on OBEDIENCE TO THE HOLY SPIRIT. This guards your finances from being dried up through obligation. Whilst **tithe** keeps the poverty out the door, **giving offerings** brings the multiplication of finances miraculously, because it is a spiritual law, and does not indicate any self righteousness on anyone's part.
6. If on the reception of offerings a MINISTRY **DOES NOT SANCTIFY THE GIFT THE OFFERING WILL NOT BE BLESSED.** This means that the minister/ministry must pray with the donor blessing the gift which must be blessed two ways, blessed for the giver that his gift be multiplied by 100, and for the receiver that it be blessing to the ministry concerned.
